

“Creating Value Through Assembly, Sequencing & Supply Chain Management”

North American Assemblies, LLC (NAA) is a mass production, modular assembly, sequencing, and supply chain management company, providing its customers with modules configured in a lean manufacturing environment and delivered just in time. At NAA, we *“Build Quality, Delivered the Way You Want It, When You Need It!”*

NAA Mission Statement

NAA's mission is to become the region's supplier of choice for quality and delivery-critical contract manufacturing, assembly and associated logistical services. We will succeed by consistently meeting the needs of our customers more effectively and economically than our competition

Company highlights

- NAA is a Certified MBE (Michigan Minority Business Development Council)
- 25,000 square foot manufacturing facility
- 25 associates; non-union facility
- Located in Florence, South Carolina

NAA Accomplishments

- NAA successfully designed, set-up and flawlessly launched a turn-key operation within 3 Months (concept to 1st production)
 - Site selection, facility improvements, hire & train associates, install equipment, pre-production trials, process validation, PQCT, QAV
 - Met all Honda quality, cost, and delivery objectives
 - Recognized by Honda for significantly improving quality
 - ***Rewarded by Honda with additional business locally, as well as other opportunities to expand the Honda relationship in North America.***
- NAA has improved manufacturing cycle time by greater than 25% vs. the previous supplier, while consistently achieving greater than a 90% improvement in quality

NAA Provides Critical Services to OEMs:

- **Manufacturing & Assembly** – allows our manufacturing customers to eliminate non-core activities and focus on what they do best. Customers achieve increased flexibility, plant utilization, and quality
- **Logistics & Sequencing** – NAA has the people and the technology needed to support the process of sequential parts delivery. NAA integrates with OEMs to provide sub-assemblies in the right order, at the right time, every time.
- **Purchasing and Supply Chain Management** – when NAA takes over the purchasing responsibility, OEMs can vastly reduce the number of suppliers they support.
- **Repair, Rework and Sorting** - functions that can otherwise drain OEM resources.
